Administering DigiCert ONE Software Trust Manager (STM)

Fast Facts

Virtual Instructor Led Training

7.5 hours lecture

7.5 hours hands-on labs

90 minute proctored exam

DigiCert Solutions Architect Certification

About this course

Welcome to the Administering DigiCert Software Trust Manager(STM) certification course. This course provides a technical overview of the DigiCert ONE code signing solution. The course covers initial configuration of the service including license management, account setup and certificate authority (CA) configuration. You will learn to use and modify built-in certificate templates, automated certificate enrollment methods, and configure certificate issuance workflows. You will also learn how to configure CI/CD integration, key management and policy enforcement.

The hands-on labs provide the opportunity to put theory into practice. The instruction and lab will take approximately 16 hours to complete.

What is DigiCert University?

DigiCert University is a non-degree granting, online learning portal that offers short online, self-paced and virtual instructor led training covering a variety of digital trust related topics and solutions. DCU offers training for both sales and technical professionals in the security industry.
